## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, lines 2, 4, and 6, the "." at the end of the line has been changed to --,--.

Claims 4,5, 12, 13, and 22-32 have been cancelled.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art did not disclose or suggest a process of planting individual aquatic seeds or groups of aquatic plant seeds underwater, in an estuary having a bottom, which comprises the steps of: positioning an aquatic plant seed in a holder, which has an aquatic plant seed retaining section and an estuary bottom gripping section, which are directly secured to each other, placing the aquatic plant seed holder in an estuary such that the estuary bottom gripping section is allowed to come in contact with the estuary bottom, wherein, the density of the composite aquatic plant holder is greater than 1 g/cc.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Terminal Disclaimer***

The terminal disclaimer filed on 23 June 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,665,981 B1 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Response to Arguments***

Applicant's argument, see page 6 of amendment, filed 23 June 2005, with respect to the statutory double patenting rejection has been fully considered and is persuasive. A seed does exhibit difference characteristics than a plant when used in a method of planting, such as claimed here. This rejection is withdrawn.

### ***Conclusion***

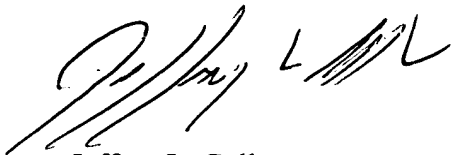

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. JP2001-299133 and JP10-3 disclose in the art various underwater planters.
